

# **CRIMSON CRISS CROSS POLLY PIG (CCC)**

**ALL POLYESTER POLYURETHANE FOAM  
AND ELASTOMER. NO METAL PARTS!**

**Heavy-density foam body  
(8-10 lb/ft<sup>3</sup> - 128-160 kg/m<sup>3</sup>)**

The Knapp Crimson Criss Cross Polly Pig is used instead of the Crimson Bare Squeegee when longer distances or more abrasion resistance is required. It is manufactured using Knapp's exclusive K-Duro™ polyurethane foam (8-10 lb/ft<sup>3</sup> density) and tough, durable crimson coating for the maximum in wear resistance. Designed for longer pipeline runs with little or no reduction in cross-sectional area, the Crimson Criss Cross offers the operator a flexible, low-cost alternative to steel mandrel pigs. Contact Knapp or a qualified representative before using a Crimson Criss Cross where line reductions are present.
